### Packaging By Design

Printer and Converter  
of Flexible Packaging

OFFERING  
UNMATCHED  
EXPERTISE WITH A  
COMMITMENT  
TO EXCELLENCE.

## Experience the Packaging By Design Advantage

**Packaging By Design** is a full service custom printer and converter of flexible films providing the kind of high quality and product protection that customers expect. We supply flexible packaging for various markets such as the candy, food, retail, general merchandise, pest control, and industrial industries.

PBD continues to be an industry leader with state-of-the-art 10 COLOR gearless, servo-driven presses that give our customers:

- Superior print resolution and registration on films
- Greater flexibility with color
- Higher running speeds, leading to faster turnaround time and lower costs

In addition, Packaging By Design is one of the few printers in the industry that uses 100% environmental friendly water-based inks and adhesives for production, not to mention our Quality Control department that ensures your specifications for each job are met with every order.

## Flexible Solutions

Packaging By Design can adjust to any flexible packaging order and specializes in outstanding turnaround time. With print quantities as low as 500 LBS, using our stocking program, and maintaining excess capacity at all times allows us to react to our customer's immediate needs within days, not weeks!

### Design Services

PBD has the capability of developing design concepts and taking them completely through the fulfillment process to a complete product. We have accomplished this many times in less than 3 weeks.

### Prototype Packaging

From quantities of one to several thousand impressions, PBD can provide you with high quality digital printing prototypes and mock production packaging for test marketing, special promotions and trade shows.

**OUR MISSION:** TO ADAPT TO OUR  
CUSTOMER'S EVER CHANGING NEEDS,  
TO **ALWAYS GROW** IN RESEARCH AND  
DEVELOPMENT, AND TO **CONSTANTLY**  
**STRIVE TO EXCEED** OUR CUSTOMER'S  
EXPECTATIONS OF EXCELLENCE, QUALITY,  
ACCURACY, AND DEPENDABILITY.
